EXHIBITIONS GUIDE

EXHIBITOR INFORMATION + REQUIREMENTS

The MECC Exhibitor Information and Requirements form can be found online at themecc.com.au.

FOOD PREPARATION/SAMPLING

The MECC retains the right to provide all catering. No food or beverage may be brought into the premises. Approval is required for samples at exhibitions, please contact: meccsalesandmarketing@mackay.qld.gov.au.

Where permission for sampling has been granted, it is the responsibility of the hirer to ensure each exhibitor is aware of the following information:

- Where potentially hazardous, unpackaged food is prepared off-site by the licensed vendor and provided to the public, it may be necessary to ensure that your food license allows you to undertake this activity.
- The food operator must handle this food in accordance with the food standards code. This includes, but not limited to; hand wash facilities must be provided and used, food must be maintained at appropriate temperatures and food must be protected from likelihood of contamination at all times.

Where food is being prepared by exhibitors, the following guidelines apply in addition to submitting a *Temporary Food Stall - Commercial form* to Mackay Regional Council.

If food is being prepared by an exhibitor/stallholder, and that food is intended to be offered as samples to visiting public, the site must be compliant with the following for the duration of the event:

- Exhibitor to investigate the hire of commercial refrigeration freezer space (liaise with MECC on allocation of parking/ placement).
- Temporary refrigeration *may* be available in the MECC service corridor (3 door walk-in cold room) for temporary storage on the day of the event.
- Exhibitor must have constant supply of warm running water for hand washing facilities and, where required, utensil wash facilities. This requires a 20 litre drum with lid and a tap that can be topped up with warm water throughout the duration of the event. Antibacterial liquid soap and single-use paper towels are also required at each hand wash station. Gloves for food handling are also required.
- There is access to hot/warm water available in the service corridors of the MECC. Exhibitor is required to have means of transporting same. It is not acceptable for the 20 litre drum to be filled directly from the hot water point and brought back to the stall as the hand wash facility has to be available at all times at each stall. A jug is suggested.
- Flooring will need to be covered with a tarpaulin or similar non-absorbent covering.

- MECC does not supply gas. If required, it is for external use only and exhibitors will need to contact the centre to obtain approval for its use.
- All appliances brought onto the premises must be tested and tagged in date.
- MECC is unable to provide cooking implements for your usage, and provision of cooking implements must be managed by the client and exhibitors.

For more information about complying with food legislation, contact council's Health and Regulatory Services team on 1300 MACKAY (622 529) or council@mackay.qld.gov.au.

INFORMATION SESSION

Any event that has six or more food stalls preparing food, must have at least one representative of the food stall (who is also present on the day of the event), attend a food safety information session. If the food stall holder does not attend the food safety information session, they will not be permitted to attend/trade.

TEMPORARY FOOD PERMIT (NOT-FOR-PROFIT)

If the vendor is a non-profit organisation, a notification of the food event is required. This is not a permit as non-profit organisations are not required to have a permit unless they provide 12 or more sit down meals per annum. There is no fee for this notification.

Council requires this form to be submitted as per above.

Council can provide advice and can inspect for compliance with the food standards code. A guide attached to the form outlines some of the requirements you must comply with when running your food stall/event.

Where there is a large food event, the event organisers may require an approval subject to the individual approvals. The specifics on whether your event would require a large food event approval, can be discussed with an Environmental Health Officer on 1300 MACKAY (622 529) or email council@mackay.qld.gov.au.

You may be asked to provide the following supporting information with the application or proposal for the large food event at the MECC:

- List of all suppliers (trading name, contact details, contact person on the day of the event);
- List of food that will be prepared for giveaway/sale by each supplier at the event;
- Floor plan of how and where each food stall will be located and;
- Details of how each food stall will be set up in relation to the guidelines.

FIRE DETECTION SYSTEMS

Due to the sensitive nature of the MECC's fire detection systems, exhibitors intending to use any heat producing device, or any device (grinders/frying pans) that may produce dust/steam/smoke etc., with the potential to place the fire detection system into alarm, will need to notify MECC staff no later than two weeks prior to the event to seek approval and determine an appropriate course of action.

TESTING AND TAGGING

All exhibitors need to be aware that any electrical equipment must be tested and tagged in date. Please note that each stand that requires electricity, will incur a cost in labour to install power to that site (\$56/hour) and a further \$36 per site, per day charge for the use of electricity.

WORKPLACE HEALTH AND SAFETY

A site induction PowerPoint presentation is available, please contact meccsalesandmarketing@mackay.qld.gov.au.

”

From paddock to plate with love.

As the largest purpose-built convention and banqueting facility between Cairns and Brisbane, the MECC in-house catering team takes pride in providing premium, high-quality and fresh local food and beverage products, that are grown, raised, caught and made in our region. Particular care is given to special dietary requirements.

The Greater Whitsunday region has abundant resources and diverse landscapes to produce quality food all year around.

With a diversity of rainfall and temperature in different parts of our region, the Greater Whitsunday region boasts a broad range of agricultural production.

This allows production of world-class beef, grains, sugar, seafood, aquaculture, fruit and vegetables all within the same region.

We proudly support and use the following local producers and suppliers for our goods and ingredients that go into our dishes: Eungelladale Milk, John Zelenka Pineapples, Sarina Sugar Shed, The Whitsunday Biscuit Factory.
